CEO FOREWORD

Foreword from Chief Executive

On behalf of ECP Safeguarding, I am proud to introduce our second strategic plan, covering the years 2024-2027. This plan builds on our commitment to empower individuals through safeguarding training and support, ensuring that everyone has the knowledge and confidence to make informed decisions. Our mission to cultivate a safer society today remains at the heart of everything we do, and this strategy outlines the steps we will take to realise that vision.

Over the next three years, we are determined to expand our reach and impact, providing vital resources and services to more professionals, children, and adults. We will develop and accredit our training programmes, enhance our digital learning platform, and broaden our consultation services to meet the evolving needs of our clients. Our infrastructure will grow to support our ambitious goals, including nurturing new talent and forging new partnerships across the country.

We are excited about the future and the opportunities it holds. Our values of empowerment, care, innovation, and collaboration will continue to guide our work as we rebrand and increase our presence. By working together with our partners, we aim to have a greater impact and support even more people in their safeguarding journeys.

As we embark on this next chapter, we are confident that our strategic plan will enable us to achieve our goals and make a lasting difference in the lives of those we serve. Together, we will build on our 20-year legacy and continue to create a safer society for all.
