

## SPOTLIGHT ON...

### NETFLIX PARTY

Watch Netflix in sync with friends

#### What is it?

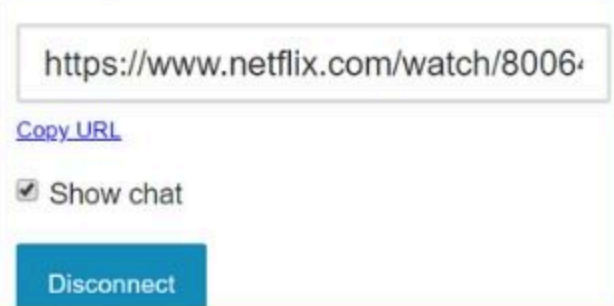

'Netflix Party' is a way for people to connect with friends while watching their favorite shows.

#### What do you need?

All you need is a Google Chrome browser and a Netflix subscription - Netflix Party is free to download.

#### How does it work?

Once downloaded, a 'NP' (Netflix Party) symbol in grey will be added to the top right corner of your Google Chrome browser, next to the address bar.

Using your Google Chrome browser, go to Netflix.com, and play what you all want to watch. This will create a URL that you can share with whoever wishes to join the party. They paste the URL into their Google Chrome browser and then click the 'NP' on their device - they then join the party and can view the same content as you.

Once connected, the 'NP' (Netflix Party) symbol will turn from grey to red. There is also a live chat function.

### Safety considerations

- There is a chat function available for people in the party to communicate during the show/ film - there is no 'report abuse' option & so your child's communication's should be monitored in case of inappropriate messages.
- There is an option at the bottom of the chat box where users can donate Netflix money through a 'Patreon' account.
- Also, ensure your child is not sharing the generated URL for the Netflix Party link with strangers.
